Happy Five-year Anniversary For Silverton Consulting

Broomfield, Colo. – This week marks the five-year anniversary of Silverton Consulting’s founding. Over the last five years the storage industry has spawned many startups with new storage technology while at the same time consolidated into ever-increasing storage conglomerates. All this has led to a rapid increase in stored data, some of it on technology that was only dreamed up a decade ago.

Storage technology doesn’t stay still for long and along the way we have helped our fair share attain market success. We hope to be around to help foster the next storage evolution and with the help of our customers and partners I am sure we will.

ABOUT Silverton Consulting, Inc. - Silverton Consulting is a Storage, Strategy & Systems consulting services company, based in the USA offering products and services to the data storage community.
